

Cawn/Krantz Preschool In-service Program 2013-2014

About Cawn/Krantz.

Northbrook- based Cawn / Krantz & Associates, Ltd. is a pediatric clinic providing cutting-edge interventions for children and their families; ranging from newborn to adolescent children who exhibit developmental difficulties. Our therapeutic environment encourages movement, exploration, and sensory stimulation. The interactions of the licensed therapist, parents, related-professional educational staff and child are an integral part of our Speech and Language and Occupational and Developmental Therapies.

Our interdisciplinary staffs – licensed and experienced speech-language pathologists, occupational therapists, developmental therapists, and social workers – are experts in providing individual assessments and interventions based on a child's unique profile.

Cawn / Krantz & Associates, Ltd. Developmental Therapies is once again offering an in-service program to your educational staff. Our informational sessions focus on communication development, motor skill development, sensory integration and attention, feeding challenges, and being able to identify children who may be at-risk for autism spectrum disorder (ASD). Past presentations have enlightened preschool staff as well as strengthened their abilities to recognize potential developmental difficulties that young children may experience. Our programs are provided by our clinically certified and licensed Speech-Language Pathologists, Occupational Therapists, Developmental Therapists, and Social Workers.

Our Speech and Language Presentation includes information in the following areas:

- ❖ Communication milestones in children ages two to five years
- ❖ Developmental milestones in play and socialization skills
- ❖ Speech and Language "Red Flags"

Our Occupational Therapy presentation includes information in the following areas:

- ❖ Typical and atypical motor skill development
- ❖ Sensory processing difficulties that impact early learning and language development

In addition to the above mentioned topics additional areas of interest that can be included are:

- ❖ Developmental Feeding and Feeding Challenges
- ❖ Strategies around Developmental Challenges within the Classroom
- ❖ Social/Peer Development
- ❖ Infant and early toddler development

We are now scheduling for the 2013-2014 school year. Please contact us for further information, and to schedule a 60 minute in-service at your facility.

- ❖ Fee: \$125 (\$50 every additional half hour)
- ❖ CEU Certificates Available
- ❖ Contact Amy at 847.480.8890, ext. 24 or amy@cawn-krantz.com

We look forward to hearing from you!
