

Interactive Metronome® at Cawn / Krantz Assoc., Ltd.

Cawn / Krantz is pleased to offer new introductory Interactive Metronome® (IM) programming.

The program begins with an initial 45-90 minute assessment to determine whether IM is an ideal fit for your child's therapy plan.

If the program is recommended for your child, he/she will participate in ten 30-minute sessions, with 2-3 sessions scheduled per week. Additional sessions may be recommended based on progress made during treatment.

At the completion of the programming, your child will participate in a post-treatment assessment. During this session the initial diagnostic will be re-administered so that your therapist can evaluate the progress made by your son or daughter.

For more information on Interactive Metronome® and to learn how to get started, please contact Kim Brahm at (847) 480-8890, extension 24 or at kimot@cawn-krantz.com
